CREATING A JOB SEARCH PLAN

It is a job to get a job. What are your steps in the job search process?

- Start with a career goal
- Explore jobs you can pursue with your major
- Research market trends to identify which jobs are in great demand
- List your skills, strengths, & interests and types of jobs that match
- Identify good places to look for jobs that work for you
- Learn about employers you want to work for
- Prioritize your list of potential employers
- Have job application information ready (resume, cover letter, references)
- Learn how to present yourself professionally to employers
- Identify methods/ strategies for finding job openings
- Apply!

VITERBI CAREER GATEWAY

STAY CONNECTED

Benefits of Networking:

- Gather information on company or industry corporate culture
- Gain an understanding of professional responsibilities
- Collect more diverse sources of information
- Get possible “inside information about a particular company or position
- Obtain valuable advice from someone who has successfully navigated the job search process
- Potentially get a job interview

INTERVIEWING STRATEGIES

Prepare for the interview:

- Know the position and the company
- Review your Resume- all areas are talking points
- Practice discussing topics that relate to business success
- Prepare leadership examples and team projects
- Prepare your questions to ask interviewer
- Why should they hire YOU?
- Make to checkout Gateway and review the handouts on interviewing
- Sign up for Mock interviews through USC Career center

Making the best impression on Interview Day

- Start with a firm handshake
- Maintain eye contact
- Wear Business Suit- (watch for exposed body piercing and tattoos)
- Focus on both verbal and non-verbal communication skills
- Clearly articulate answers
- No self-deprecating- Keep it positive
- Watch body language - sit up and project confidence
- Relax and Smile
